About Cwm Taf Morgannwg University Health Board

Thank you for your interest in the role of Chair to the Cwm Taf Morgannwg University Health Board (CTMUHB). This document provides candidates with information on the CTMUHB, as well as details on the roles and responsibilities of the Chair and selection process.

CTMUHB was formed on 1 April 2019, providing and commissioning a full range of hospital and community based services for the residents of Bridgend, Rhondda Cynon Taf and Merthyr Tydfil.

Our resident population is estimated at 449,836 (Stats Wales Welsh Government, June 2021), increasing to 530,000 when accounting for flows from other areas e.g. South Powys, North Cardiff, Neath Port Talbot, Vale of Glamorgan.

We are also responsible for making arrangements for residents to access more specialised health services where these are not provided within CTMUHB boundary. Further information about the services that we provide can be found on the 'services' section of [our website](#).

More than 80% of our 13,000 workforce live within our region, making our staff not only the lifeblood of our organisation but also representative of the diverse communities that we serve.

It is projected that by the year 2036 one in four people in Wales will be aged 65 and over. This will therefore have significant implications for our 65-84 and 85+ age groups and therefore the way we need to design and provide our increasingly integrated health & social services.

CTM 2030: Our Health, Our Future

In September 2021 we began work on our strategy: 'CTM 2030: Our Health, Our Future'. This aims to set out how we will develop services to meet the needs of its population, and, how we can work with our communities to ensure that local people can live happier and healthier lives, for as long as possible.

As part of CTM2030 we will also be developing a clinical strategy, community hub, a green strategy, a workforce strategy and a digital strategy and establishing the Health Board as an anchor institution.

The following goals have been set to enable us to develop our strategy which will detail what we are seeking to achieve over the next few years.

Escalation Status

Welsh Government operates NHS Wales Escalation and Intervention Arrangements whereby one of four levels of monitoring are assigned to health bodies based upon key aspects of their service delivery.

CTMUHB has, since April 2019, been in the category of 'Special Measures' for Maternity Services and 'Targeted Intervention' in relation to a series of issues relating to Trust and Confidence, Leadership and Culture and Quality and Governance.

Despite ongoing operational and COVID-19 pressures since this time, CTMUHB has been acknowledged to be making continued progress and improvement.

CTMUHB's sustained quality and service improvements continue to be monitored by the Board's internal governance structure as well as through external review bodies and Welsh Government.

CTM Values and Behaviours

In October 2022, World Values Day, will mark two years since the Health Board began to introduce its Values & Behaviours which exist to make a positive difference to our employees as well as to our patients and service users across the diverse communities we serve.

Our organisational focus is firmly on embedding these values and behaviours into everyday practice. The Board is committed to building a culture it feels proud of, with recognisable values at its core that can be felt and understood by every person who comes into contact with them. By living up to our organisational values and behaviours at every opportunity, we can achieve these three
